Ethical Photography & Participant Consent Agreement for Grant Recipients

Purpose of This Agreement

As a recipient of funding from AWIN, you may take photos or videos of project activities, participants, and community settings for reporting, educational, or promotional purposes. To protect the dignity, privacy, and rights of individuals, especially in health and nutrition contexts, this agreement outlines expectations for ethical photography and consent.

I acknowledge and agree to the following:

1. Informed Consent

- I will obtain **prior written or verbal consent** from all individuals (or their parent/guardian, if under 18) before taking any photographs or videos.
- I will clearly explain how the image(s) may be used (e.g., reports, websites, social media, educational materials).

2. Respect and Dignity

- I will ensure that all photographs/videos portray individuals respectfully and truthfully.
- I will **not** photograph or film individuals in vulnerable situations without clear justification and full consent.

3. Privacy

- I will not include names or identifying details without permission.
- I will avoid capturing private health information or settings that compromise confidentiality.

4. Cultural Sensitivity

- I will be mindful of cultural norms and community values regarding image-taking and sharing.

5. No Exploitation

- I understand that photography should empower, not exploit. Images should uphold the values of dignity, equity, and health promotion.

6. Storage and Use

- I will store and share media responsibly and ensure it is used only for the stated purposes approved by AWIN.
